I need to assign the result of a user.get() to a variable but it keeps coming up as undefined. Here is my code:

```
const User = props => ( User :  
  {props.user.name} {props.user.email}  
  {props.user.devices} ); Here is the user.get()  
function in the parent component: getUser(){  
  fetch(`.then((res) => res.json()) .then((data) =>  
    this.setState({ users: data, }))) .catch(error =>  
this.setState({error: error.message})); } And here  
is the map of the array that should be passed into  
the render() function: const data = [];  
  this.state.users.forEach(user => {  
    data.push(user); }); If
